OE Electric Water Pump

Manufactured to the highest quality and original equipment specifications.

- › Original equipment parts for simplified installation and no comebacks
- › Precise engine temperature control through variation of coolant volume flow
- › Operation independent from main cooling circuit and combustion engine operation
- › Vehicle specific fit and function
- › Made in ISO certified facilities

Continental offers Electric Water Pumps with integrated Control Units.

The Continental Electric Water Pumps are the exact OE parts and are manufactured to the highest quality and original equipment specifications. They are identical in fit, form, and function and provide the exact quality of OE components supplied to auto manufacturers worldwide.

Professional technicians and DIYers alike want quality products for ease of installation, fit, and performance. Our Electric Water Pumps are built in OE ISO/TS certified facilities and manufactured to the highest quality standards.

With Continental, you can count on the dependable performance and robust design of original equipment while still maintaining a competitive price.
